

RELIVING THOSE DAYS AT TECHTV ...

2004 ...

NeoFan712: Yeeeeeeeeeeooutch! The pain!
The pain!

MrsLaporte1701: What is it, NeoFan, what
have you found in the Matrix?

NeoFan712: Our Savior, MrsLaporte, I
think I've found our Savior in the year
2001!

MrsLaporte1701: 2001? What in Leo's name
is he doing in the year 2001?

AlXanderfan666: If I might interrupt ...

MrsLaporte1701: AlXanderfan666, what is so important that you interrupt news on our Savior's location?

AlXanderfan666: I'm sorry, ma'am, but it's a code yellow security alert!

MrsLaporte1701: Code yellow, you mean?

AlXanderfan666: Yes, G4TechTV has taken down all links to our Savior, Leo Laporte's web site!

MrsLaporte1701: What do you mean? What reason was given?

AlXanderfan666: Something about him being dead means that he is no longer working for the network! It is poppycock! Poppycock!

MrsLaporte1701: Alert the uptown residents! The followers must know about the unholy trinity of evil! We'll call out the big guns on this one!

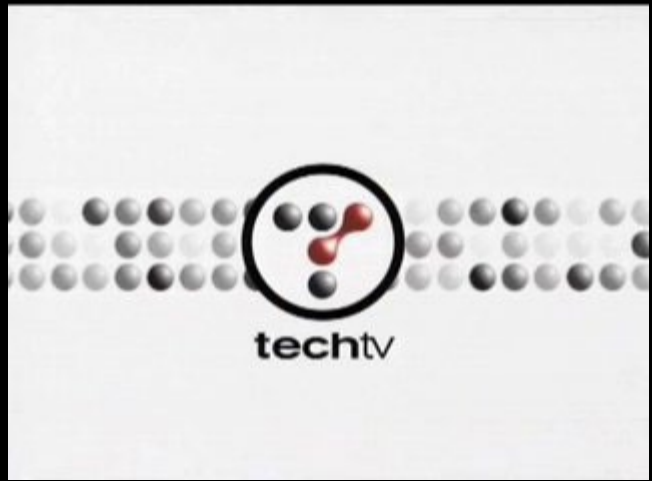

AlXanderfan666: His will be done.

MrsLaporte1701: And AlXanderfan666?

AlXanderfan666: Yes, mistress?

MrsLaporte1701: Block their chat room. If they're not talking about the Savior, than they won't talk at all!
